

Play With a Pro Academic Solution: For schools, universities and other educational institutions.

What is the Play With a Pro Academic Solution?

Play With a Pro Academic Solution supports students and teachers with easy access to Play With a Pro video material - all the video lessons needed for the desired instruments, at a great price. Instantly stream videos in HD quality, or download in HD quality to view at your convenience. *It's our goal to reach and educate as many students as possible. That's the reason why we've made this very affordable solution.*

Your personal video library

Students and teachers alike can build and customise their own individual video libraries, populating them only with the Play With a Pro videos of personal interest. It's easy: simply download the video of choice or log in to the cloud player and watch the video as it's instantly streamed.

Subscription = unlimited access

An annual subscription to our Academic Solution gives complete and unlimited access to the subscribed material, in both streamed and downloaded formats. We're continuously adding new videos to our library too, which are also included in the subscription price.

Supported on every device

The Academic Solution is supported by all devices and across platforms, meaning any computer, smartphone or tablet with an iOS, Android or even Linux operating system can access it.

Right now, there are over 85 hours of material available... and counting.
